

SC 64 Road Safety Assessment (RSA) SAFETY IMPROVEMENT PROJECT

Drop-in Public Information Meeting in Colleton County

Welcome to the Public Information Meeting hosted by the South Carolina Department of Transportation (SCDOT) for the proposed safety improvements at SC 64 (Bells Highway / Robertson Blvd). Your attendance and feedback are very important components of the project development process. The purpose of this meeting is to provide you with an opportunity to review and comment on the proposed improvements. SCDOT representatives are available to address any questions or concerns that you may have regarding this project.

Project Background

Over a three-year period 388 total crashes (382 vehicular, 2 pedestrian, and 4 bicycle) have been reported along the study area, at a rate of approximately 59 crashes per year. Of the 388 crashes, 106 resulted in injuries (101 vehicular, 1 pedestrian, and 4 bicycle) and 1 resulted in a fatality (1 pedestrian) during the three-year study period. The number and severity of injury crashes warranted a closer evaluation for potential safety improvements for drivers, pedestrians, and bicyclists.

The South Carolina Department of Transportation (SCDOT) proposes to improve safety along the approximately 2.2-mile section of SC 64 (Bells Highway / Robertson Blvd). The purpose and need of this Road Safety Assessment is to evaluate the safety issues and other areas of concern along SC 64, between Upchurch Lane / Walmart Driveway and N Jefferies Blvd including the intersections located along the route. The study identifies opportunities for improving bicycle, pedestrian, and vehicular safety.

Project Schedule

Public Comments: September 10 to October 8, 2026

Right of Way: TBD
Construction Begins: Spring 2028

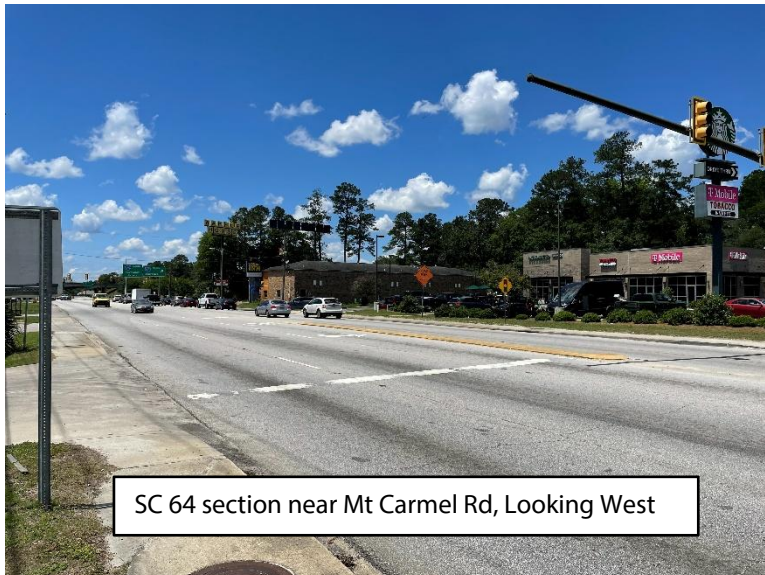

SC 64 Road Safety Assessment (RSA) SAFETY IMPROVEMENT PROJECT

RSA Process

This corridor was selected for assessment through the Federal Highway Safety Improvement Program (HSIP). The HSIP program uses a data driven strategic approach to identify locations throughout the state with high crash rates or patterns and implements safety enhancements through infrastructure related improvements. The HSIP project selection requires an engineering study that includes an analysis of the crash data, an assessment of the field conditions, and an evaluation of the effectiveness of all potential countermeasures to ensure maximum safety benefits are obtained for the amount of funds invested.

SCDOT's Office of Traffic Safety identified this corridor as a potential safety project and conducted the Road Safety Assessment (RSA). The RSA began with detailed data collection and analysis of the crashes that were occurring. A multidisciplinary team was formed to provide a variety of perspectives.

The team included SCDOT, Stantec, Colleton County, LCOG, City of Walterboro, and FHWA. The team identified safety improvements that were documented in the RSA and presented today.

Project Highlights

The proposed project includes the following improvements:

- High Visibility Crosswalks
- New Sidewalk and ADA Ramps
- Leading Pedestrian Intervals
- Flashing Yellow Arrows (FYA)
- New Pavement Markings
- Updated Signal Timings
- Raised Medians (Select Locations)
- New mid-block Pedestrian Crossings

Requested Feedback

Share Your Comments: September 10 to October 8, 2026

Title VI Compliance

SCDOT complies with all nondiscrimination requirements set forth by the Federal regulations issued by the U.S. Department of Transportation under Title VI of the Civil Rights Act of 1964, as amended. Any person who believes that he or she has been discriminated against because of race, color, religion, sex, age, handicap or disability or national origin under a program receiving Federal Aid has the right to file a complaint with SCDOT. The complaint should be filed with the Title VI Program Compliance Coordinator at the Office of Business Development and Special Programs, 955 Park Street, Suite 117, Columbia, SC 29202 or at (803) 737-5095. The complaint should be submitted no later than 180 days after the date of the alleged act of discrimination. It should outline as completely as possible the facts and circumstances of the incident; and should be signed by the person making the complaint.
