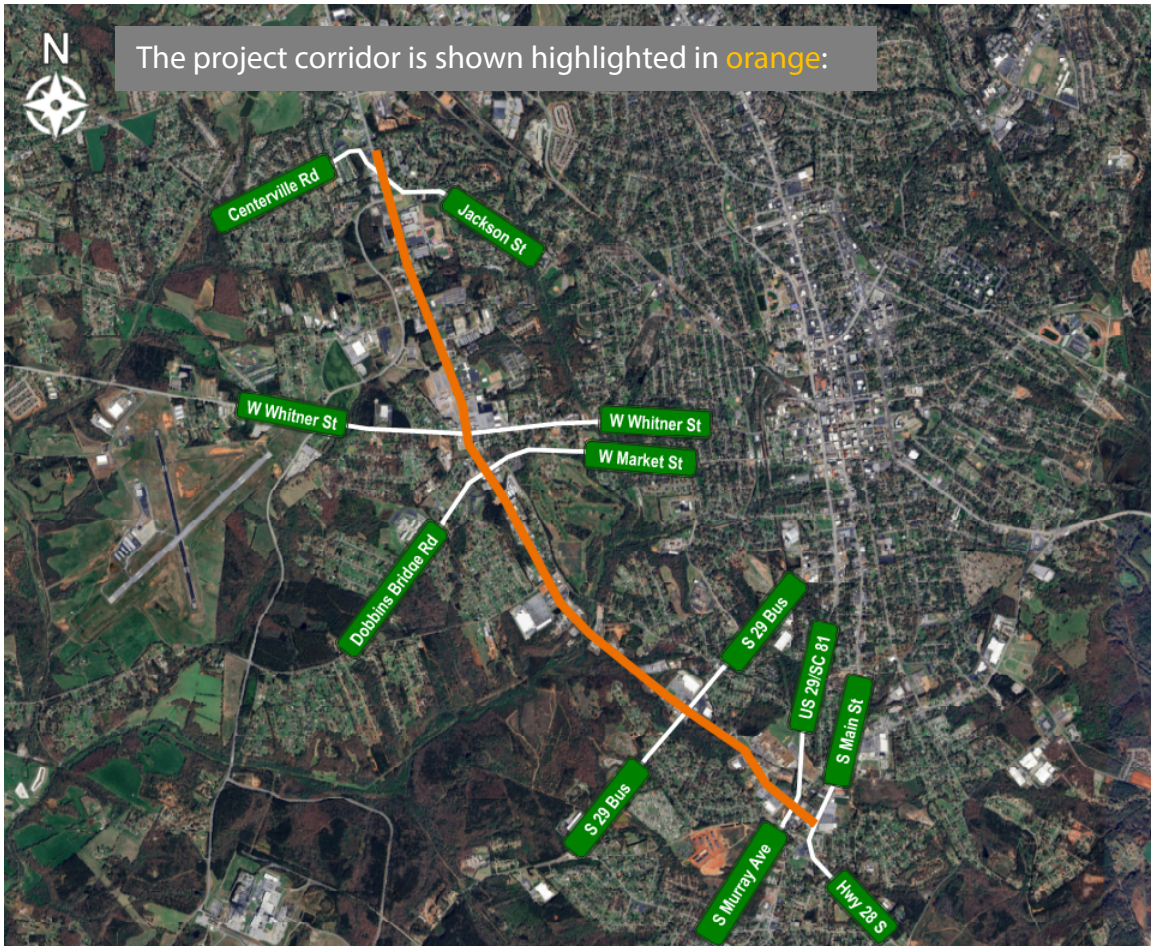
SC 28 Road Safety Assessment (RSA)
SAFETY IMPROVEMENT PROJECT

Drop-in Public Information Meeting in
Anderson County

Welcome

Welcome to the Public Information Meeting hosted by the South Carolina Department of Transportation (SCDOT) for the proposed safety improvements along SC 28. Your attendance and feedback are very important components of the project development process. The purpose of this meeting is to provide you with an opportunity to review and comment on the proposed improvements. SCDOT representatives are available to address any questions or concerns that you may have regarding this project.



Project Background

The South Carolina Department of Transportation (SCDOT) proposes to improve safety along the approximately 4.3-mile section of SC 28. The purpose and need of this Road Safety Assessment is to evaluate the safety issues and other areas of concern along SC 28, between Highway 28 South and Camellia Drive, including the intersections located along the route. The study identifies opportunities for improving bicycle, pedestrian, and vehicular safety.

Over three-years, from 2021-2023, 806 total crashes (795 vehicular, 8 pedestrian, and 3 bicycle) have been reported along the study area, at a rate of approximately 269 crashes per year. Of the 806 crashes, 149 resulted in injuries (138 vehicular, 8 pedestrian, and 3 bicycle) and 3 resulted in a fatality (3 vehicular) during the three-year study period. The number and severity of injury crashes warranted a closer evaluation for potential safety improvements for drivers, pedestrians, and bicyclists.

Project Schedule

Public Comments: May 19 to June 16, 2026

Right of Way: Fall 2027
Construction Begins: Winter 2028

SC 28 Road Safety Assessment (RSA)
SAFETY IMPROVEMENT PROJECT

RSA Process

This corridor was selected for assessment through the Federal Highway Safety Improvement Program (HSIP). The HSIP program uses a data driven strategic approach to identify locations throughout the state with high crash rates or patterns and implements safety enhancements through infrastructure related improvements. The HSIP project selection requires an engineering study that includes an analysis of the crash data, an assessment of the field conditions, and an evaluation of the effectiveness of all potential countermeasures to ensure maximum safety benefits are obtained for the amount of funds invested.

SCDOT's Office of Traffic Safety identified this corridor as a potential safety project and conducted the Road Safety Assessment (RSA). The RSA began with detailed data collection and analysis of the crashes that were occurring. A multidisciplinary team was formed to provide a variety of perspectives.

The team included SCDOT, Stantec, Anderson County, City of Anderson, ACATS, and FHWA. The team identified safety improvements that were documented in the RSA and presented today.

SC 28 section on southern end near South Park Drive

Project Highlights

The proposed project includes the following improvements:

- High Visibility Crosswalks
- Sidewalk and ADA Ramps
- Leading Pedestrian Intervals
- Countdown Signal Heads
- Access Management
- Shared-use Path
- Flashing Yellow Arrows (FYA)
- New Pavement Markings
- Offset Left Turn Lanes
- Evaluate Lighting
- Raised Median (Select Locations)
- Evaluate Transit Stop Locations

Requested Feedback

Share Your Comments: May 26 to June 16, 2026

In Person

Fill out a comment card and drop it in the comment box at the public meeting at Robert Anderson Middle School on June 2, 2026

Title VI Compliance

SCDOT complies with all nondiscrimination requirements set forth by the Federal regulations issued by the U.S. Department of Transportation under Title VI of the Civil Rights Act of 1964, as amended. Any person who believes that he or she has been discriminated against because of race, color, religion, sex, age, handicap or disability or national origin under a program receiving Federal Aid has the right to file a complaint with SCDOT. The complaint should be filed with the Title VI Program Compliance Coordinator at the Office of Business Development and Special Programs, 955Park Street, Suite 117, Columbia, SC 29202 or at (803) 737-5095. The complaint should be submitted no later than 180 days after the date of the alleged act of discrimination. It should outline as completely as possible the facts and circumstances of the incident; and should be signed by the person making the complaint.
