

S-76 Road Safety Assessment (RSA) SAFETY IMPROVEMENT PROJECT

Drop-in Public Information Meeting in Charleston and Dorchester County

Welcome to the Public Information Meeting hosted by the South Carolina Department of Transportation (SCDOT) for the proposed safety improvements along S-76 (Ladson Rd.). Your attendance and feedback are very important components of the project development process. The purpose of this meeting is to provide you with an opportunity to review and comment on the proposed improvements. SCDOT representatives are available to address any questions or concerns that you may have regarding this project.

The project corridor is shown in orange below:

Project Background

Over a three-year period, 1,172 total crashes (1,167 vehicular, 4 pedestrian, and 1 bicycle) have been reported along the study area, at a rate of approximately 150 crashes per year per mile. Of the 1,172 crashes, 247 resulted in injuries (243 vehicular and 4 pedestrian). The number and severity of injury crashes warranted a closer evaluation for potential safety improvements for drivers, pedestrians, and bicyclists.

The South Carolina Department of Transportation (SCDOT) proposes to improve safety along the approximately 2.6-mile section of S-76 (Ladson Rd). The purpose and need of this Road Safety Assessment is to evaluate the safety issues and other areas of concern along S-76 (Ladson Rd). The RSA limits begin at Wallace Ackerman Drive/Limehouse Drive and ends where the Charleston County Highway 78 improvements project starts near College Park Road.

Project Schedule

Public Comments: September 3 to
October 1, 2026

Right of Way: Winter 2027
Construction Begins: Spring 2028
Construction: 18 months

S-76 Road Safety Assessment (RSA) SAFETY IMPROVEMENT PROJECT

RSA Process

This corridor was selected for assessment through the Federal Highway Safety Improvement Program (HSIP). The HSIP program uses a data driven strategic approach to identify locations throughout the state with high crash rates or patterns and implements safety enhancements through infrastructure related improvements. The HSIP project selection requires an engineering study that includes an analysis of the crash data, an assessment of the field conditions, and an evaluation of the effectiveness of all potential countermeasures to ensure maximum safety benefits are obtained for the amount of funds invested.

SCDOT's Office of Traffic Safety identified this corridor as a potential safety project and conducted the Road Safety Assessment (RSA). The RSA began with detailed data collection and analysis of the crashes that were occurring. A multidisciplinary team was formed to provide a variety of perspectives.

The team included SCDOT, Stantec, Charleston County, Dorchester County, BCDCOG, Charleston Moves and FHWA. The team identified safety improvements that were documented in the RSA and presented today.

S-76 Ladson Rd section near Palmetto Commerce Parkway,
Looking East

Project Highlights

The proposed project includes the following improvements:

- High Visibility Crosswalks
- New Sidewalk and ADA Ramps
- Leading Pedestrian Intervals
- Flashing Yellow Arrows (FYA)
- New Pavement Markings
- Updated Signal Timings
- Raised Medians (Select Locations)
- New mid-block Pedestrian Crossings
- Convert Lane orientations at Select Intersections

Requested Feedback

Share Your Comments: September 3 to October 1, 2026

Title VI Compliance

SCDOT complies with all nondiscrimination requirements set forth by the Federal regulations issued by the U.S. Department of Transportation under Title VI of the Civil Rights Act of 1964, as amended. Any person who believes that he or she has been discriminated against because of race, color, religion, sex, age, handicap or disability or national origin under a program receiving Federal Aid has the right to file a complaint with SCDOT. The complaint should be filed with the Title VI Program Compliance Coordinator at the Office of Business Development and Special Programs, 955 Park Street, Suite 117, Columbia, SC 29202 or at (803) 737-5095. The complaint should be submitted no later than 180 days after the date of the alleged act of discrimination. It should outline as completely as possible the facts and circumstances of the incident; and should be signed by the person making the complaint.
