| 2 | 5:50 – 6:00 p.m. | Introductions and Project Overview |
| 3 | 6:00 – 6:45 p.m. | Feedback Session |

SCDOT Devine Street Corridor Study

SCDOT is proposing to evaluate the feasibility of corridor improvements to Devine Street in Columbia from Harden Street to Millwood Avenue.

Improvements could include:

Lane Configurations

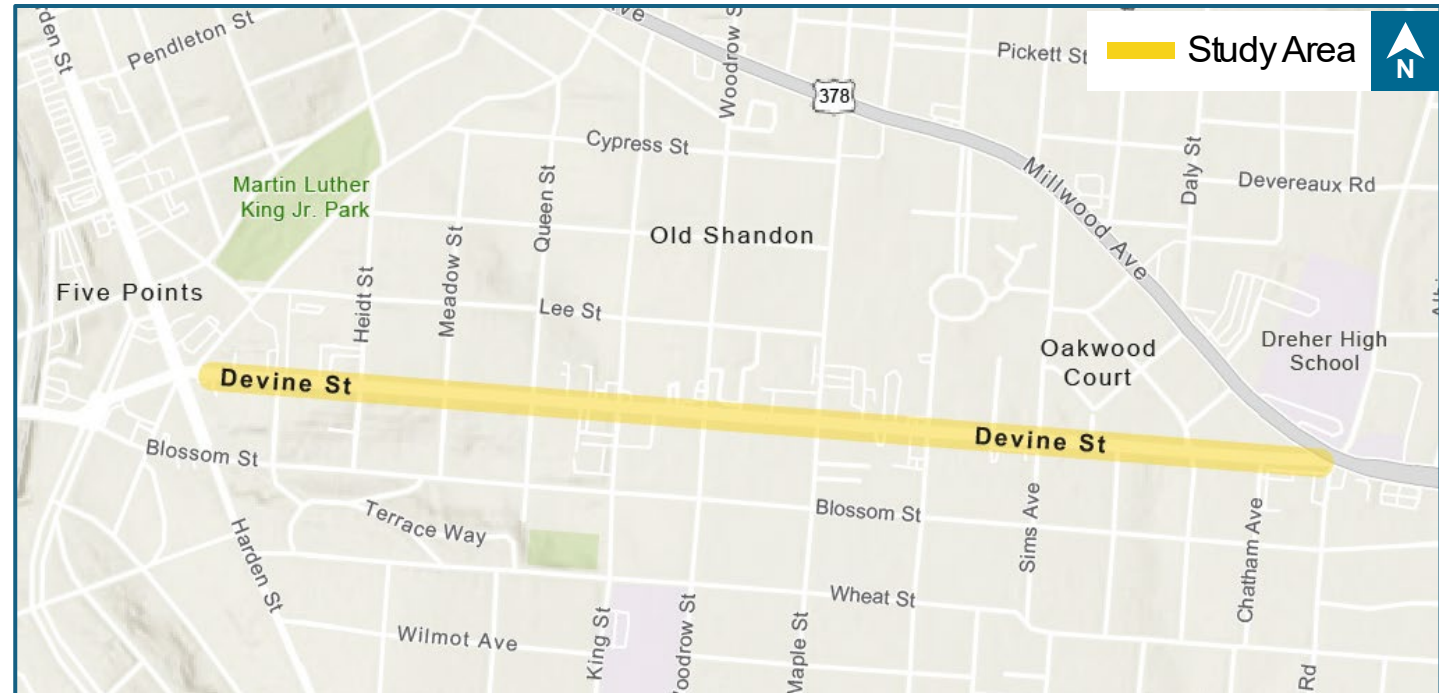

Parking

Bike and pedestrian accommodations

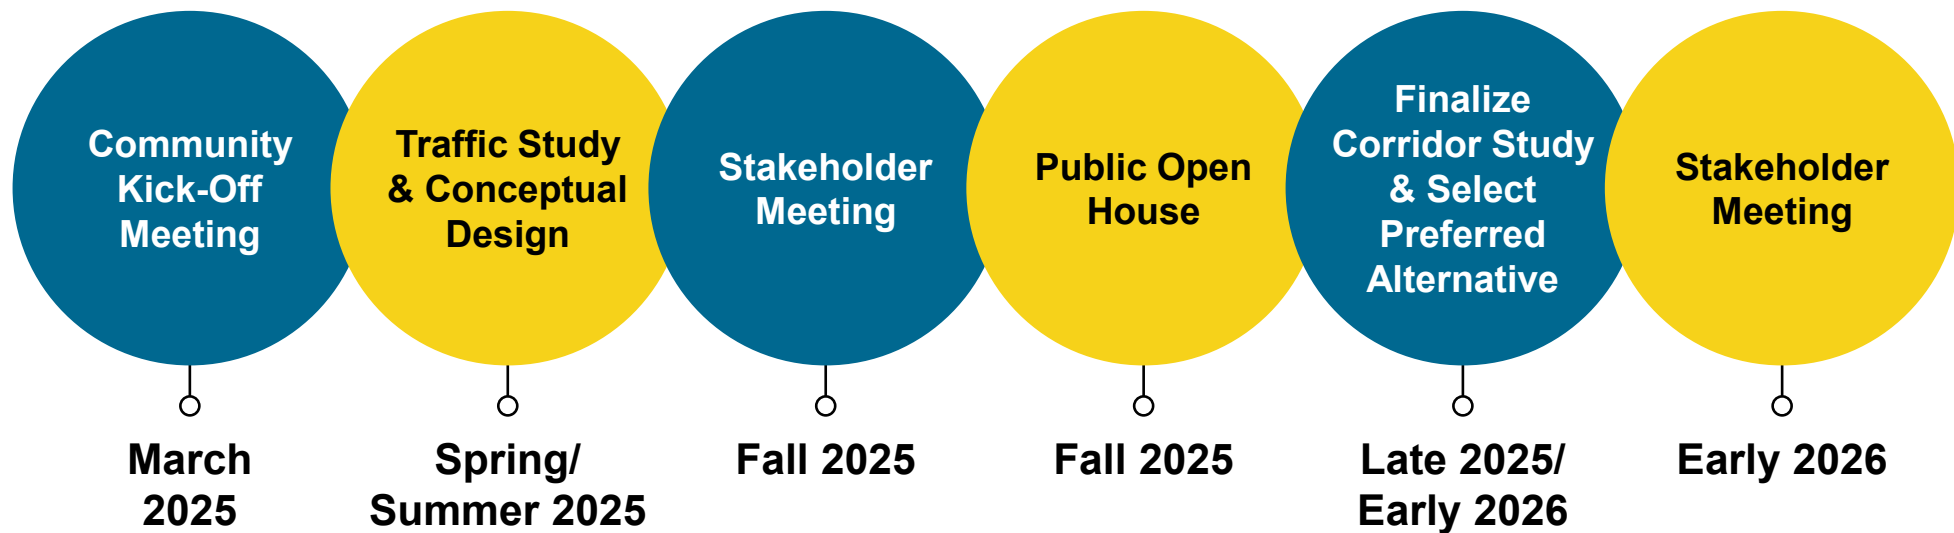

Lighting

Public Engagement

As the Devine Street Corridor Study progresses SCDOT is committed to performing outreach and coordinating with local business, community, government, and neighborhood representatives.

Key outreach milestones are outlined below.

Next Steps

Please move to a map station to provide your insights on the corridor and feedback on potential improvements.

Use the sticky notes
provided to share
feedback!

Thank you!
